WITNESSETH

WHEREAS, Princeton University desires that the Contractor furnish construction services, labor, material and equipment more fully described in the documents comprising this Contract; and

WHEREAS, the Contractor represents that it is willing and able to provide these services in accordance with the terms of this Contract;

NOW THEREFORE, in consideration of the mutual promises set forth below and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Princeton University and Contractor do mutually agree as follows (each of Princeton University and Contractor may hereinafter be referred to as a party or collectively as the parties):

ARTICLE I – THE “CONTRACT” AND THE “CONTRACT DOCUMENTS”

(a) The “Contract Documents” consist of the documents listed below in this paragraph, including Modifications thereto, all of which form the “Contract” and are as fully a part of the Contract as if attached to this Agreement or repeated herein. A “Modification” to the Contract is: (1) a written amendment to the Contract signed by both parties; (2) a Change Order (as defined in and pursuant and subject to Part II of the Contract, General Terms & Conditions, Section H and its subparts) signed by both parties; or (3) a Disputed Change Order (as defined in and pursuant and subject to Part II of the Contract, General Terms & Conditions, Clause H5) issued by Princeton University. The Contract Documents are:

(1) This Agreement (Part I).

- Attachment 1 – Princeton University’s Request for Proposal/Bid titled “[INPUT]”, in its entirety, dated [INPUT], and if not attached hereto deemed incorporated herein by reference as Attachment 1 (the “RFP”). (#INPUT pages)

- Attachment 2 – Contractor’s proposal/bid dated [INPUT], or portions thereof, only to the extent as attached as Attachment 2 (the “Proposal”). (#INPUT pages)
- (2) **General Terms and Conditions for Construction Contracts (v9.0 05-2020) (Part II)** (the “General Terms & Conditions”). Any references in this Agreement to specific ‘Clauses’ of the Contract refer to this document.
- (3) **Statement of Work/Drawings and Specifications (Part III), which include:**
- Attachment 1 - Document List, dated [INPUT], which, without limitation, identifies the Drawings and Specifications (#INPUT pages).
 - Attachment 2 – Assumptions and Clarifications and Exclusions, dated [INPUT] (#INPUT pages).
- (4) **Project Schedule, dated [INPUT] with a data date of [INPUT] (Part IV).**

(b) Any documents attached to any of the above identified Contract Documents or identified therein as being part of said document or this Contract at the time of execution and delivery of this Contract shall be deemed incorporated therein and herein as part of the Contract Documents subject to any other applicable terms and conditions of the Contract Documents.

(c) The Contract Documents are intended to be complementary and interpreted in harmony so as to avoid conflict, with words and phrases interpreted in a manner consistent with construction and design industry standards. The intent of the Contract Documents is also to include all items necessary for the proper execution and completion of the Work by the Contractor. Since the Contract Documents are complementary, what is required by one shall be as binding as if required by all; it being the intention of the Contract Documents to include all things reasonably inferable from the Drawings and Specifications. Items not expressly included in the Contract Documents, but which are reasonably inferable therefrom as being necessary to produce the intended results, shall be deemed included in the Work. In the event of any inconsistency, conflict, or ambiguity between or among the Contract Documents, the Contractor shall notify Princeton University before proceeding to request written clarification from Princeton University or the Architect/Engineer (if such request relates to the Drawings or Specifications) to resolve any such inconsistency, but in all instances of any such inconsistency, conflict, ambiguity, or omission the Contractor shall provide the better quality or greater quantity of Work or comply with the more stringent requirement or stricter obligations unless expressly qualified in Contractor’s Assumptions and Clarifications and Exclusions document attached as part of Part III of the Contract.

ARTICLE II – DEFINITIONS

(a) Certain definitions applicable to terms in this Contract are found in General Terms & Conditions (Part II) Clause A1 – Definitions. The following additional definition is also applicable to this Contract. The defined term herein and those in Clause A1 are not intended to be a comprehensive list of defined terms in the Contract, many of which are defined elsewhere in individual provisions of this Agreement (Part I of the Contract), the General Terms & Conditions (Part II of the Contract), and the other Contract Documents.

(b) The term "Architect/Engineer" as it appears in the Contract Documents shall specifically mean **Project Architect or Engineer**, having an office at **Project Architect or Engineer City, State** and shall aggregately include all subconsultants employed or retained or coordinated by the Architect/Engineer including, but not limited to, structural, mechanical, electrical and other engineers and all other consultants to design the elements and observe the construction of a complete building structure and system. It is understood that the Architect/Engineer may be terminated during the term of this Contract and such termination shall not be a breach of this Contract. If the employment of the Architect/Engineer is terminated, within a reasonable time thereafter and to the extent reasonably necessary for the progress

of the Project, a new Architect/Engineer shall be retained whose status under the Contract Documents shall be that of the former Architect/Engineer. Notwithstanding the inclusiveness of the defined term Architect/Engineer herein, any required approvals from Architect/Engineer or any submittals to or communication with Architect/Engineer as required of Contractor by or pursuant to the Contract Documents shall be through or with the firm set forth in the first sentence of this Article II(b) (by its authorized representative on this Project as made known to Contractor), unless expressly authorized or directed otherwise in writing by said firm or Princeton University

ARTICLE III – PROJECT REPRESENTATIVES

(a) The Contractor's designated representatives for this Contract and the Project are:

Contractor's Project Manager	-	Project Manager
Contractor's Administrative Rep	-	Administrative Representative

(b) Princeton University's designated representatives for this Contract and Project (individually and collectively herein "Princeton University Representatives") are:

Princeton Project Manager Name	-	Project Manager
Princeton Contract Admin Name	-	Administrative Representative

(c) Agreements and/or actions taken by the Contractor that, by their nature, effect a change in the Work to this Contract or would be a Modification to the Contract, shall only be binding upon Princeton University when such change or action is specifically authorized in writing in advance by one of the Princeton University Representatives listed above and otherwise in conformance with all terms of the Contract Documents. Therefore, any Work or change undertaken by the Contractor at the direction of anyone other than a Princeton University Representative, or without the prior written authorization of a Princeton University Representative, is at the Contractor's own risk.

ARTICLE IV – STATEMENT OF WORK

(a) **Scope of Work.** The Contractor agrees to furnish all labor, equipment, material and supervision to perform the Work indicated in the Contract Documents listed or referred to in Article I hereof for the Project.

(b) **Contractor Personnel.** Princeton University expects the Contractor to provide workers who are properly qualified, trained, certified, and experienced in their respective trades to perform the Work under this Contract. The Contractor is responsible for its employees using safe working practices, maintaining satisfactory standards of employee competency, conduct, and integrity, and for taking such disciplinary action with respect to its employees as may be necessary and appropriate and shall be responsible for ensuring that the Work is performed in accordance with the established practices of the craft or trade. Princeton University reserves the right to require the Contractor to remove any employee from the worksite who is deemed to be incompetent, careless, insubordinate, belligerent, or whose continued employment on the Project is otherwise considered to be contrary to Princeton University's interest.

(c) **Job Supervision.** The Contractor is responsible for providing supervision, coordination, and oversight necessary to facilitate the orderly progress and timely completion of the Work. Princeton University does expect that occasional site visits will be made by Contractor's management staff; however, direct charges for supervision of jobs by company management personnel will not be allowed (such costs should be treated as a part of overhead). Unless collective bargaining agreement rules specify otherwise, any time there are two (2) or more workers of the same trade on a job, one (1) individual will

be designated as the foreman and is responsible for overseeing and coordinating safe and high-quality work.

(d) **Coordination of Work.** The Contractor acknowledges that it is essential that all Work on this project be coordinated, including Work to be provided by Princeton University staff/employees. The Contractor shall be responsible for coordinating the Work of all its employees and Subcontractors as well as any Work to be provided by Princeton University.

(e) **Vehicles, Tools, and Equipment.** The Contractor is responsible for providing any and all vehicles, tools, and equipment necessary for performing the Work under this Contract including obtaining the equipment and transporting the equipment to and from the job site. In this regard, the Contractor shall:

(1) Ensure that its employees that are assigned to perform the Work carry their own tools of the trade or are provided with tools normally carried by the trade on the job site. "Tools of the trade" are generally considered to be vehicles, tools, and equipment (e.g. hand tools, power tools, pickup trucks, vans, ladders, scaffolding, etc.) that are normally used in the course and scope of the Contractor's business and that should be a part of a qualified Contractor's inventory. Costs related to the acquisition, use, or maintenance of tools of the trade should be included as a part of the Contractor's fully-burdened Hourly Labor Rates and are not under any circumstances to be separately or directly billed under this Contract.

(2) Arrange for lease or rental of any special tools and equipment needed to perform the Work. "Special tools and equipment" are considered to be tools and equipment (e.g. cranes, towed air compressors, dumpsters with associated tipping fees, etc.) that are not typically maintained in a Contractor's inventory, but that are leased or rented when needed for a specific project/job. Charges for lease or rental of special tools and equipment with associated mark-up may be directly billed provided that the Contractor clearly identifies these items in advance as a part of their proposal to perform the Work.

(3) Ensure that all vehicles, tools, and equipment are in good operating condition, capable of rendering efficient, economical, and continuous service and equipped with necessary and required safety devices in accordance with all applicable State and Federal laws. While Princeton University reserves the right to inspect any equipment for compliance with these requirements regarding condition, this does not relieve the Contractor of the obligation to furnish conforming equipment. If any equipment is found to be deficient or non-conforming, Princeton University shall so notify the Contractor who shall immediately take action to place the equipment in good operating condition at his own expense. If the Contractor does not take corrective action within a reasonable time, Princeton University may require the immediate removal and replacement of the deficient equipment at the Contractor's expense.

ARTICLE V – CONTRACT PRICE and NOT-TO-EXCEED PRICE

(a) **Contract Price (Not-to-Exceed Price).** In full consideration for the performance of all items required by the Contract for the proper completion of the Work and all other obligations of Contractor hereunder, Princeton University agrees to pay the Contractor for the actual and permissible time-and-materials costs ("Contract Price") incurred up to, but not exceeding, the total "**Not-to-Exceed Price**" of **\$#,###,###.## (Insert text description** of amount) calculated based on the following and as further defined in General Terms & Conditions Clause 1(e):

(1) **Hourly Labor Rates.** Princeton will compensate the Contractor for actual hours incurred by its employees in the performance of the Work at the fully-burdened Hourly Labor Rates

Straight Time Rates shall apply to a forty (40) hour work week performed at Princeton University. Overtime Rates will not be paid unless overtime Work is specifically authorized in advance by a Princeton University Representative named in Article III of this Contract. - (i) Costs associated with providing “tools of the trade”.
- (ii) Costs for travel to and from the worksite including costs for travel time, transportation expenses, meals/subsistence lodging, per diem, or any other travel or living type expenses.
- (iii) Charges for supervision of projects/jobs by company management personnel.

(2) **Material, Special Equipment, and Subcontractor Costs.** Princeton will compensate the Contractor for actual costs for purchase of materials, acquisition of special equipment, and any subcontracted work plus applicable mark-up based on the rates set forth below. Mark-up rates are intended to reimburse the Contractor for material handling and other indirect costs associated with acquiring materials, special equipment, and subcontracted work that are typically allocated to direct costs for these items in accordance with the Contractor’s usual accounting procedures. Profit shall not be included as a part of these mark-up rates.

- Material Mark-Up Rate **NN%**
- Special Equipment Mark-Up Rate.... **NN%**
- Subcontractor Mark-Up **NN%**

The term Contract Price in the General Terms & Conditions (Part II of the Contract) shall also mean the Not-to-Exceed Price.

Costs or rates that are not compliant with this Contract or that are otherwise determined to be unallowable by Princeton University shall not be paid under this Contract.
